

About Me

Monday, 15 May 2006

Last Updated Monday, 18 September 2006

Eclectic. All you need to know about me can be summed up in one word. Whether I am brushing up on the latest in web technology, getting acquainted with yet another new release of CAD software, reading about the ancient Toltecs, trying out the daily sudoku puzzle, gallivanting about the globe in search of unspoiled beauty, or building up fundamental techniques in photography, I strive to excel and long to explore in everything I do.
